## PROFILE

I'm a Results-driven Front end Developer with passion for creating responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and WordPress. Skilled in translating design mock ups and wire-frames into interactive and pixel-perfect interfaces. Adept at optimizing website performance and ensuring cross-browser compatibility. Strong collaboration and problem-solving abilities, demonstrated through successful teamwork on various projects. Committed to staying up-to-date with the latest front end technologies and industry trends.

## COMPETENCY

- Responsive Design
- Website Optimization
- Search Engine Optimization

## WORK EXPERIENCE

### Freelance Web Developer

self-Employed

2021-Current

- Planned website development, converting mockups into usable web presence.
- Designed, implemented and monitored web pages, plugins and functionality for continuous improvement.
- Built websites using HTML, CSS, JavaScript, SASS/SCSS and WordPress.
- Adhered to SEO best practices while designing sites.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
